

**Italian American Civic League
of Fort Lauderdale
LA VOCE
Message from the President — Domenico Capurso**

Dear Members
Cari Membri

It has been 4 months since I was elected as the New President of the Italian American Civic League. With the help of our Board Members we have achieved Lots of things throughout the summer.

We have reinstated our website for the club, so that now all the members will be Able to navigate to see all the information that we have put in, and most important thing is that we Have the new membership application online for you to send an email to the club's president. We would like to have all the members email addresses, so that we can send the newsletter online. Those that do not have an email address or do not want to receive the newsletter online we will mail it.

As I mentioned in the last newsletter we are tentatively hiring a new chef for the October Dinner Dance so that we can alternate every other month. I would also like to ask the Board at the first meeting in September to see if we can change the process of installing new members as soon as they want to join and not have them wait until January or February. With the Boards approval we can accept applications that we have already received.
